

Please DE-centralize corporate media power in the US. Help create a nation that works for everyone along lines that our founders intended. If you are religious, I say that God never intended so much power in the hands of so few. If you are atheist, I say that natural law REQUIRES diversity for ANY healthy ecosystem. Make no mistake, the future of our great nation devolves from this choice and others like it. Look at the example of the demise of the Roman Republic -- brought about by the rise of EMPIRE. Help move us AWAY from that end, toward our founders' intended path of lasting republican democracy.
